Natural gas and Propane (LPG) fuels are increasing in popularity as fleets energy of choice. This event is your opportunity to learn why.

Kellie Walsh, Director of the Greater Indiana Clean Cities will provide an overview of these vehicle fuels and fueling options commercially available today.

Real world case studies and the tools for a fleet to do their own payback analysis will be reviewed.

Contact Kellie@greaterindiana.com for additional information, or call 317.834.3754.
